"I was able to jump right in and
be involved within the College
of ACES organizations. My only
wish now is that I had two more
years!"

JOHN PETERS

Transferred from: Heartland Community College

WHY ACES? At the College of ACES, you can gain research expertise as you study with world-class faculty, take advantage of career planning via the College's Office of Student Development and Career Services, and participate in your choice of more than 25 ACES student organizations. And if you want to explore the world, ACES is the way to go! About 30

percent of the students in the College of ACES study abroad.

The College of ACES is a place where you can

gain the leadership skills, knowledge, and social networks necessary to achieve your goals.

Follow an exciting career path

The College of ACES offers nearly 40 majors and programs, leading to varied and exciting career paths: > Adoption and Family Counseling > Agricultural Broadcasting > Bioenergy > Biotechnology > Conservation > Early Childhood Education > Farm/Rural Policy Advocacy > Financial Consulting > Food Product Research and Development > High School Ag/Science Education > Law > Marketing > Nutrition and Dietetics > Public Relations > Restoration Ecology > Seed Breeding and Technology > Sports Nutrition > Sustainable Landscape Design > Urban Planning > Veterinary Medicine > Wildlife Rehabilitation.

Leading employers around the world choose ACES graduates: > Monsanto > Caterpillar > John Deere > Kraft Foods > Nestle U.S.A. > Abbott Labs > DuPont > Pioneer > ADM > Hilton Hotels. ACES grads are also in demand at nonprofit organizations: > Catholic Charities > National Park Service > Peace Corps > Humane Society.

An ACES education pays handsome dividends: Kiplinger's Personal Finance ranks the University in its Top Ten of in-state 100 Best Values in Public Colleges. Nearly one-fourth of all ACES students take advantage of more than one million dollars of scholarship support available through the college each year. Agricultural and Biological Engineering, Food Science and Human Nutrition, and Animal Sciences and are just a few of the ACES programs that consistently rank in the top five among peer institutions.

Visit us! Call 217.333.3380 to schedule a visit to the College of ACES. We are excited to meet you and to answer any questions you may have!
